NAIFA—Do You Believe?

When we came into this business we were told to be like eagles and soar above all others. Eagles soar on their own, but they **flock together for their protection, proving there is safety in numbers.**

What does NAIFA do for you?

Do the solutions you provide for your clients provide Tax Advantages / Benefits?

What if ... Those Tax Advantages / Benefits were eliminated or severely reduced—would the Client have taken action?

NAIFA created the Tax Advantages / Benefits our products enjoy—since the Income Tax Code was made law in 1913.

Today, NAIFA continues to defend and protect those Tax Advantages / Benefits.

Why is this important?

For the past 60-plus years, Congress has tried to tax the death benefit of life insurance. If they were able to get that done, it would generate trillions of dollars in taxes. For the past 60-plus consecutive years, we have lobbied in Washington, D.C. against that tax.

Pick your favorite tax advantage product and ask yourself what you would do if these were the headlines: *“The Cost of War on Terrorism Doubles, Congress Votes to Tax (fill in your product) to Pay for the War.”* Is it realistic? Possibly. That's why we have to have an organization that takes care of us but also our clients. This tax would devastate our clients, so it is vitally important that we have a voice.
